1. Selected Ranks based upon ranking of data item listed for all areas. Identical values are assigned identical ranks; therefore, maximum rank (*) may not be equal to number of units.
2. All ranks and calculations derived by Polidata from Census Bureau datasets. Many ranks are based upon the relative value of the percentage to illustrate geographic presence.
3. An associated value, normally the raw data value, may follow percentage values. This table ranked on INDPROPEW (SF3-P049); associated item is INDPRONUM.
4. Hyphens before area name indicate level of geography: (-)County, (-)County Subdivision, or (--)Place.
