POLIDATA (R) Demographic and Political Guides. All Rights Reserved. Copyright (c) 2005. Polidata. www.polidata.org

1. Data formatted by Polidata from data collected from state authorities. Each line represents selected elections or averages for the State or County (not for areas listed in A or B).
2. The Average reflects a Major Party Average for these elections from 1976 to 2004. Other votes are disregarded for this average. Therefore, Ind vote and percentages will be blank.
3. This average is calculated using average of two years vote as turnout. Average major party % is then applied to turnout average.
4. For 1996 & 1992 Ind is Perot. Other is remaining. Uppercase in W column indicates a Win over 50%, lowercase under 50%. Margin listed in votes and percentage for winner of unit.
5. (A) is population center(s) in the county; (B) is the seat of local government, if any, or the political status otherwise; (C) is FIPS St/Cy and Polidata County Abbreviation.
