- Selected Ranks based upon ranking of data item listed for all areas. Identical values are assigned identical ranks; therefore, maximum rank (*) may not be equal to number of units.
- All ranks and calculations derived by Polidata from Census Bureau datasets. Many ranks are based upon the relative value of the percentage to illustrate geographic presence.
- An associated value, normally the raw data value, may follow percentage values. This table ranked on POP100 (SF1-POP100); associated item is TOTVAP.
- Hyphens before area name indicate level of geography: (-)County, (--)County Subdivision, or (---)Place. @ indicates a consolidated government.
